3. Learn to work under pressure.

On the Occasion of Engineer's Day, ITSA organized a Terror Error Technical Event opened for all SJCEM Students. ITSA Conducted this event on 15/09/22. Three competitions were arranged under this event namely Blind Java, Code Scramble and Technical Blog. All the three games were held at IT Department Labs. All the games were conducted simultaneously.
For blind java, the participants were given a java code and they had to write the code with screen off and the one with the minimum number of errors was selected for the next round. The time limit given for the Blind Java was 5 minutes. For code Scramble, the participants were given the scatter code. They had to correctly arrange it and get the right output. The time limit for the same was 5 minutes. For Technical Blog, the participants were given 1 hour to write a blog of their choice but it was required that the topic must be related to technical stuff. The competitors were not allowed to use any site. The winners for Blind JAVA and Code Scramble were criteria based whereas for Technical Blog it was judged by ITSA Core Committee with names of the participants hidden.
